

MISTING WIZARDS

SMART PATIO COOLING

PROFESSIONAL MW-150 SYSTEM

1.5 L/MIN | 70 BAR | APP CONTROL

High-pressure outdoor comfort in a refined metallic system engineered for responsive, scheduled cooling.

SMART COOLING. REFINED PERFORMANCE.

The MW-150 combines a professional triplex three-piston pump, 70-bar pressure and smart app control in a sleek aluminum body. Designed for patios and outdoor entertaining areas, it produces consistent high-pressure mist with convenient scheduling and straightforward maintenance.

1.5 L/MIN FLOW

70 BAR PRESSURE

SMART APP CONTROL

ALUMINUM BODY

DESIGNED FOR

Luxury patios • Pool decks • Outdoor kitchens • Covered terraces
Residential entertaining • Boutique hospitality • Café seating

Professional installation and site-specific system design recommended.

MW-150 PRODUCT SPECIFICATION

TECHNICAL OVERVIEW

FLOW RATE	1.5 liters per minute
PRESSURE	70 bar high pressure
PUMP	Triplex 3-piston pump
CONTROL	Smart app + onboard controls
CONSTRUCTION	Durable aluminum body
COOLING	Heavy-duty cooling fan
COMPLIANCE	CE and RoHS certified

PERFORMANCE BENEFITS

- **Fine, consistent cooling**
High-pressure delivery supports an even micro-mist pattern for outdoor comfort.
- **Smart scheduling**
App control and onboard functions simplify recurring operating schedules.
- **Professional pump design**
Triplex three-piston architecture supports stable, dependable performance.
- **Built for serviceability**
Aluminum construction, active cooling and accessible maintenance features.

IDEAL ENVIRONMENTS

- **Residential**
Patios, pool areas, outdoor kitchens and covered entertaining spaces.
- **Hospitality**
Restaurant terraces, boutique hotels, cafés and event settings.
- **Design-conscious projects**
Metallic finish integrates elegantly with premium outdoor architecture.
- **Site-specific installations**
Flexible stainless tubing supports tailored mist-line layouts.

OPERATION & INSTALLATION

Use clean water, follow the supplied manual and verify electrical, water-quality and mounting requirements before operation. Final cooling performance depends on temperature, humidity, airflow, nozzle placement and site design.

COMPLETE MW-150 PACKAGE

PROFESSIONAL PATIO COOLING INSTALLATION KIT

1. Triplex 3-piston professional-quality pump
2. (9) 2ft segments of pliable stainless steel tubing
3. Step-by-step DIY User Manual
