MISTING WIZARDS

PROFESSIONAL MW-300

DUAL-PURPOSE MISTING SYSTEM

1 L/MIN | 1000 PSI | SMART CONTROL

Engineered for refined outdoor comfort, consistent fine-mist performance and dependable automated operation.

COOLING, HUMIDIFICATION & AMBIENT MIST

Create a more comfortable outdoor environment with a professional-grade system designed for residential and commercial applications. A high-efficiency axial pump with dual plungers supports stable output, while the built-in digital timer makes scheduled operation simple.

- **1 L/MIN FLOW**
- **TOUCHSCREEN + BLUETOOTH**
- **1000 PSI**
- **PROTECTIVE CASING**

IDEAL APPLICATIONS

Luxury patios • Outdoor kitchens • Restaurants • Event spaces

Gardens • Greenhouses • Commercial cooling environments

Professional installation and site-specific system design recommended.

MISTING WIZARDS

MW-300 PRODUCT SPECIFICATION

TECHNICAL OVERVIEW

FLOW RATE	1 liter per minute
PUMP TYPE	Axial pump with 2 plungers
PRESSURE	1000 PSI high pressure
CONTROL	Touchscreen + Bluetooth scheduling
CONSTRUCTION	Durable protective iron casing
FUNCTIONS	Fogging, misting, cooling, humidification
USE CLASS	Residential and commercial

PERFORMANCE BENEFITS

- **Consistent fine mist**
  Supports effective outdoor cooling and humidity control with an even mist pattern.
- **Smart scheduling**
  Touchscreen and Bluetooth controls support convenient mist schedules and recurring use.
- **Stable pressure delivery**
  Dual-plunger axial pump is designed for smooth, dependable mist output.
- **Built for outdoor service**
  Protective casing helps shield core equipment and support long-term reliability.

RECOMMENDED ENVIRONMENTS

- **Residential**
  Patios, pool decks, outdoor kitchens, gardens and covered entertaining areas.
- **Hospitality**
  Restaurant terraces, cafés, rooftop venues and outdoor event spaces.
- **Horticultural**
  Greenhouses, plant-care areas and humidity-support applications.
- **Commercial**
  Site-specific outdoor or industrial cooling applications.

OPTIONAL SPECIALTY APPLICATIONS

May be configured with compatible auxiliary equipment for application-specific misting. Use only solutions expressly approved for the equipment and intended site; follow all product-label directions and applicable regulations. Never represent a chemical treatment as child-safe or pet-safe without written substantiation.

COMPLETE SYSTEM PACKAGE

PROFESSIONAL MW-300 INSTALLATION COMPONENTS

ENGINEERED AS A COMPLETE INSTALLATION SOLUTION

The professional MW-300 package brings together the smart high-pressure pump, distribution components and installation accessories needed to create a refined, site-specific misting environment.

SMART PUMP & CONTROL

MW-300 high-pressure unit with touchscreen and Bluetooth scheduling.

MIST DISTRIBUTION

Stainless mist lines, nozzle assemblies and mounting clips.

WATER CONNECTION

Tubing, inlet connection, filter housing and service accessories.

INSTALLATION HARDWARE

Fittings, adapters, seals, connectors and user documentation.

PACKAGE CONFIGURATION

Component quantities and final layout may vary by selected kit and project requirements.
