APPLICATIONS

Whole-home ambience • Offices and boardrooms • Hotel suites and lobbies • Premium retail and reception areas

RESPONSIBLE USE
Use only approved fragrance oils. Place the unit on a stable, level surface with the outlet unobstructed. Begin at a low intensity, monitor occupant comfort, and follow the supplied instructions for refilling, cleaning, and maintenance.

SMART CONTROL & SERVICE

SIMPLE CONNECTION. INTUITIVE SCHEDULING. EASY RESERVOIR ACCESS.

CONNECTED OPERATING SYSTEM

Wi-Fi supports smart remote access; Bluetooth provides quick local connection and setup.

UPWARD-ACCESS RESERVOIR

Top-access bottle removal helps simplify refilling, replacement, cleaning, and routine service.

1 Choose a connection

Select Wi-Fi for remote access or Bluetooth for local control.

2 Build a schedule

Set operating periods to match occupancy and daily routines.

3 Start at low intensity

Increase gradually after evaluating room size and comfort.

4 Keep the outlet clear

Maintain airflow around the diffuser for consistent distribution.

5 Service from the top

Power off before removing, refilling, or cleaning the reservoir.

6 Monitor comfort

Adjust output when occupants report fragrance sensitivity.

CARE NOTE

Use approved fragrance media and follow all model-specific installation and maintenance instructions. Control availability may vary by configuration.
